Education

- **National Tsing Hua University (NTHU), Hsinchu, Taiwan** **2022 - Present**
M.S. in Computer Science (CS)
- **National Cheng Kung University (NCKU), Tainan, Taiwan** **2018 - 2022**
B.S. in Computer Science (CS)

Experience and Projects

- **Networking and Multimedia Systems Lab, NTHU (Research Assistant)** **2022 - Present**
My reasearch dirction focuses on the scheduling the usability and designing the innovative techniques for IoT devices. In my previous work, I use NS-3 (network simulator) to simulate some feasible deployment of IoT devices and evaluate the performance through the network metrics.
- **Teaching Assistant in Computer Networks Course** **Sept 2022 - Jan 2023**
My job includes answering questions from the student in the Q&A session and desgin one course assignment that guides the students to implement the routing algorithms.
- **Undergraduate senior project in NCKU** **Sept 2020 - Jun 2021**
My graduation project is Network communication on NXP MPC5748G development board. I use NXP board to build client and server, them use ECIES to encrypt and decrypt packet data between them.
